Subject: Craig Stevens says.....

Thought you might appreciate this. Is the EPA ready to branch out beyond Dimock? Will you survey evaluate impacted wells outside of Dimock? Please let me know, I will go through my list and have people contact you. Thanks, Ex. 6 - Personal Privacy

Subj: EPA cell numbers to call if you have water problems.....

Trish Taylor, EPA, cell 215 514 2732

Rich Fetzer , Epa. cell 215 341 6307

Bob Halverson, CDC, cell 215 313 4788

Just got these from Craig Stevens and he said that

EPA will branch out especially after the Dimock testing comes out badly, and they know about Ex. 6 - Personal Privacy and others.

I wrote to Rich Fetzer just a bit ago and asked about Ex. 6 - Personal Privacy and other people and will see what he says.

The EPA is asking folks if they want to be tested and if they want to include DEP and Cabot for split-testing.

And the EPA can't force them to be tested.

Anyway, share these numbers where you like for those you know have water problems.

Vera
